Profile

Dynamic, detail-oriented, certified Software Test Engineer highly regarded for research, analytical, technical, and problem-solving skills, with success using automation tools to support testing in the industry. Exposed to Software Development Life Cycle and Software Testing Life Cycle. Seen as a leader with the ability to analyze complex issues and develop solutions to complete business projects. Known as an excellent communicator and tutor, who works well with individuals at all levels of an organization. Strong engineering professional with a Bachelor of Science - BSc focused in Computer Science from Babcock University.

Skills

Programming Languages

Java, JavaScript, Dart, Python

CI/CD and Version Control

Git, GitHub, Bitbucket, CircleCI, Jenkins

Soft Skills

Leadership, Teamwork, Analytical, Communication, Strategic Planning & Executions

Tools and Frameworks

Cypress, Appium, Selenium, Postman, Apache JMeter, Katalon, React, Flutter, Microsoft excel, Rest Assured, JIRA, Trello

Testing Types

Automated Testing, Manual Testing, API Testing, Performance Testing, Functional Testing

Professional Experience

Apr 2022 – present
Lagos, Nigeria

Renmoney Microfinance Bank

Test Automation Engineer

- Created a framework for **API Automation** using **Cypress**, which is currently used by all automation engineers.
- Created **Appium** framework in **Java** from scratch, utilising **TestNG**, **Extent Report**, **Page Object Model** and **Data Driven** test approach to set up.
- Managed the Mobile automation team to ensure automation scripts from every team member have enough test coverage.
- Worked with the devops team to set up and integrate Cypress tests to the **Jenkins CI/CD** Pipeline and utilised **Cypress Dashboard** for Report analysis.
- Wrote automation test cases on **Microsoft excel** before writing automation scripts.
- Wrote various **SQL Queries** to retrieve and modify data in database before, during and after tests.

Aug 2021 – Apr 2022
Lagos, Nigeria

Seamfix

Test Automation Engineer

- Automated 4 high priority projects with **Selenium** and **Cypress** to reduce the regression time by 87% through converting 90% of manual testcases to automated scripts.
- Created **web automation** framework on **cypress**, which was used across the company to automate new projects.
- Managed and wrote automation scripts for automating API services in **Rest Assured**.
- Participated in product and design sessions with developers, UI designers and product managers to start **early testing** and improve quality at early stages.
- Reviewed **Pull/Merge** requests from other automation engineers before merging.

Jan 2021 – Aug 2021 Lagos, Nigeria	Quales Consulting  <i>Software Tester</i> <ul style="list-style-type: none"> • Created Test Scripts to test APIs in Postman. • Wrote test cases that accelerated the productivity in the TDLC. • Reported bugs on boards using Trello. • Automated tests to reduce time taken to perform regression testing using Selenium (Java). • Analyzed raw data sheets using tools such as Vlookup, match, index, etc.
Jan 2020 – Jun 2020 Edo, Nigeria	Nigerian Petroleum Development Company  <i>IT Support</i> <ul style="list-style-type: none"> • Inspected new systems to test the necessary drivers and software and approve that they are up to standard before distributing to users. • Directly responsible for managing the Managing Director's boardroom, overseeing all IT services needed.

Projects

World Population Count

Java, Selenium, TestNG, Maven, PostgreSQL

- Wrote an automated script with **Selenium (Java)** that gets the counting total population of the world from a website every second for a specific time.
- Utilised the **TestNG** annotations to managed the test methods.
- Integrated **PostgreSQL** which was used to store the data with **Maven** to manage all dependencies.
- Used **Page Factory** as a **Page Object Model** to manage web elements.

End to End Automation on Online Shopping Mall

JavaScript, Cypress, Cypress Dashboard

- Implemented the use of Page Object Model (POM) to store HTML elements.
- Intercepted api request to change the view on the front end.
- Created commands to reduce repetitive codes and follow the principles of DRY (Don't Repeat Your Code).
- Worked with the Cypress Dashboard to give a more presentable report to client and also capture the video of test runs.

Education

Sep 2017 – Jun 2021 Nigeria	Babcock University <i>B.Sc Computer Science (Second Class Honors Upper Division)</i>
--------------------------------	--

Certificates

ISTQB® - International Software Testing Qualifications Board (*Certified Tester Foundation Level (CTFL)*)
